Job profile	
Some job requirements	Matching explanation
1. Advanced degree	<p>I have a Masters of Arts degree in development studies (Poverty and Development). I am trained to work in poverty reduction programmes in developing countries. Some policy areas studied are food security, sustainable livelihoods, social protection, climate change adaptation, national development strategies/PRSPs, pro-poor growth, child poverty, microfinance, migration, agriculture, trade, health, education, HIV/AIDS, gender and aid effectiveness.</p> <p>This in- depth study enables me to;</p> <ol style="list-style-type: none"> 1. Analyse economic, political, institutional and social policy 2. Plan and implement poverty programmes 3. Monitor and evaluate poverty programmes (including constructing counterfactuals) 4. Carry out surveys (household, community, market and labour) 5. Provide technical advice 6. Think through new development approaches 7. Facilitate capacity building activities 8. Write development policy briefs
2. Work Experience	<p>I am an experienced development practitioner who has worked for over 10 years in different development projects. In the process acquiring & practicing intellectual, professional, technical, administrative and financial skills as detailed earlier.</p>
3. Recent publishable works	<p>From November 2011 I published a number of newspaper articles (with the Nation Media Group) on poverty such as food security, social protection, livelihoods, climate change, aid effectiveness and poverty measurement.</p>
4. Quantitative skills in poverty and vulnerability analyses	<p>Through work experience and post-graduate study I have applied different quantitative tools in poverty policy analysis. These include Living Standards Measurements Studies, Gender Sensitive Budgeting, benefit and tax incidence analyses, Social Accounting Matrix, Computable General Equilibrium, Partial Equilibrium, census and poverty programmes impact evaluations (Using quasi-experimental design; propensity score matching, double difference, reflexive method, instrumental variables and regression analysis).</p>
